AI COLLABORATION PLAN

Empowering Teams with Practical AI

AI Lab helps organizations understand, master, and apply Artificial Intelligence to boost efficiency, creativity, and decision-making.

This collaboration program is designed across three learning levels: Beginner, Intermediate, and Advance, tailored to your team's readiness and goals.

Program Objectives:

- Provide a hands-on, result-oriented AI learning experience.
- Build internal team capability to integrate AI into daily operations.
- Develop a clear roadmap for AI adoption and transformation.

Beginner: Understanding AI Potential

Level 1 — Beginner: Discover AI & Its Business Impact

Description

Participants will learn the fundamentals of AI, its real-world impact, and how to leverage it to design future-ready business strategies.

Best For

Non-technical teams, HR, marketing, and management leaders who want to understand how AI can support business growth.

Key Outputs

- Clarity on AI potential
- Business roadmap for AI adoption

Pricing

- Online Only
- IDR 300,000 / participant (minimum 50 participants)

Intermediate: Prompt Mastery

Level 2 — Intermediate: Designing AI-Driven Prompt

Description

Participants will learn how to design, refine, and optimize prompts for better AI-generated outputs that align with business goals and operations.

Best For

Creative, marketing, and operations teams already experimenting with AI tools and seeking improved, consistent results.

Key Outputs

- Effective prompt frameworks
- Applied AI use cases for daily tasks

Pricing

- Online: IDR 1,000,000 / participant (min. 50 participants)
- Offline: IDR 1,500,000 / participant (min. 50 participants)

Advance: Building Autonomous AI Systems

Level 3 — Advance: Custom AI Agents & Automation

Description

Participants will learn how to design and deploy autonomous AI systems capable of reasoning, decision-making, and executing complex tasks.

Best For

IT, developers, and innovation teams focused on creating in-house AI-driven automation and decision systems.

Key Outputs

- Custom-built AI agents
- Deployment-ready automation models

Pricing

- Online: IDR 5,000,000 / participant (min. 50 participants)
- Offline: IDR 7,500,000 / participant (min. 50 participants)

Why Collaborate with AI Lab?

- Future-Ready Learning Experience
 - Hands-on learning built around real-world industry cases.
- Collaborative Growth
 - We help your team not just learn, but implement AI for tangible business impact.
- Expert Mentors
 - AI Lab's instructors are experienced practitioners in AI development and business integration.
- Sustainable Impact
 - Our programs ensure the skills and outputs can be directly applied in your organization's operations.
